Dear _____,

Hope you are well!   A few quick updates on SLO assessment at the College.   Despite the challenges of the pandemic-disrupted semester, we had a total of over 300 courses assess their SLOs across the College in fall 2020, which is an all-time high!

Assessments completed in your area in spring 2020:

Reports: Please let SLOAC know if your department would like a report on aggregated assessment results for your degree or courses where multiple sections were assessed, and we'd be happy to provide this.

Spring Assessments:
This is our final semester of the 3-year COM SLO assessment cycle, so at end of spring 2021 all courses should have been assessed - it looks like your area only have a few classes left to assess this year.   Here's your current assessment plan. If there's any other additional classes to assess, just let me know.

Mapping:
ESL has completed all its mapping.

Checking SLOs on the Syllabus:
Please ask faculty to check that their SLOs on the syllabus/Canvas site match the COR and to send a copy of their syllabus to the admin assistant in their area. Faculty can view the most up-to-date SLOs in CORs from this link https://marin.elumenapp.com/public/   Note: Click on the blue Course Outline Report in the 3rd column to view current SLOs in the course outline of record.

Thanks!! Please feel free to reach out to me if you have any questions/concerns!
