Year-Long Goals for SLO Assessment:

- **Closing the loop** – having useable data that faculty can use -- how it is all sitting together; develop process for pushing out data or looking at data on a regular basis
- **Badging** – so that students can have student-facing info (outcomes). Explore ISLO connection, CTE
- **eLUMEN as a tool, not a repository** to assess our own performance; statistically valid; aggregated data (some courses). Move away from changing curriculum because I "feel" it is right and more using SLO data. Move from demo of dashboard tool to useful tool that faculty take ownership of and use (model projects.
- **Interdisciplinary projects** – how can ISLO and PSLO and aggregated course-level data be used across disciplines (data we have – how is it useful?)
