TOPIC and Time		Notes
5 min	**Meeting Overview** • review minutes • brainstorming session with Gina and Maria • SLO Friday talk - strategies from other colleges • quick division check in • review maps • eLumen update on duplicates	
30 min	**Brainstorming Session** • how can we message non participation concerns through CC and Academic Senate?	Brainstorming session with Maria and Gina • Maria will communicate with individual faculty about getting SLO completed - Logan will send list of who is not doing the work • Gina having trouble getting mandatory course revisions completed with some departments, interested in discipline review • Maria, Gina and Logan will make some announcements at chairs if needed

30 min	**Review strategies from other colleges**
	• Analysis and Action Guide Worksheet
	   Analysis and Action Guide - 1.docx
	• ACES from Chaffey College
	   https://www.chaffey.edu/outcomes/aces-outcomes.php
		Analysis and Action guide looked at but will need more time to thoroughly review - could use something like this as a follow up to PR or with equity facilitators - provides data coaching in a template
		
		did not get to ACES

10 min	**Division updates:** • quick review of any division updates	BEH will need some follow up - no assessments plans for this fall
15 min	**Maps** • review mapping needs with focus on # of degrees awarded • look at PRIE data for Degrees and Certs awarded and focus mapping on highest # of awards first.	everyone needs to identify which maps in their areas are not complete - need to get all maps completed for our dashboard looked at degrees awarded but need Holley to identify the time frame and general questions
5 min	**Tech Updates** • eLumen updates • updated links on website	waiting on eLumen work order to be completed then reports can be pulled for Holley folder is set up for SLO reports that will go to dashboard

SLOAC's Year-Long Goals for SLO Assessment:

• Closing the loop – having useable data that faculty can use -- how it is all sitting together; develop process for pushing out data or looking at data on a regular basis
• Badging – so that students can have student-facing info (outcomes). Explore ISLO connection, CTE

• eLUMEN as a tool, not a repository to assess our own performance; statistically valid; aggregated data (some courses). Move away from changing curriculum because I "feel" it is right and more using SLO data. Move from demo of dashboard tool to useful tool that faculty take ownership of and use (model projects.

• Interdisciplinary projects – how can ISLO and PSLO and aggregated course-level data be used across disciplines (data we have – how is it useful?)
