Statistics 115+++

SLOS

Students receiving a Liberal Arts Degree in Social and Behavioral Sciences will be able to:

1. Demonstrate through written and oral work an understanding of key concepts, terminology, principles and/or theories within the social and behavioral sciences.
2. Demonstrate through written and oral work an understanding of methodological approaches used by the social and behavioral sciences to investigate and analyze human behavior.
3. Understand and articulate how culture, society, politics and diversity shape the role of the individual within society.
4. Describe and analyze how individuals, or groups, are influenced by, or interact with social, cultural or political intuitions.
5. Articulate and critically evaluate how social and behavioral scientists view the ways that individuals and societies are interconnected within social, historical, political, and cultural environments.

PLEASE SEE INDIVIDUAL DISCIPLINES FOR THE REST.
